

Bonny Flighty – Victoria 26

£18000 ONO

Bonny Flighty is a Victoria 26 which is a small, long keeled offshore cruiser. She was built in 1985, moulded by Northshore and fitted out by Rampart Marine. She has a white GRP hull with style stripes.

Long keel with lead ballast

Self draining cock pit

Tiller steering to keel hung rudder

She is easily handled

My father bought her in 2017 but sadly has never really been sailing in her only getting out a handful of times and he is now too unwell to do so. I have listed below the work that has been done to her since he purchased her. (I have all the receipts for this work)

I have had a boat survey completed in August 2025 and will happily share on request.

Supply and fit

1 x Z spar masthead rigged, deck stepped single spreader Z300E section furling mast to standard specification.

1 x Z162E Boom to standard specification
